AGAINST THE MOTION: "ONLINE LEARNING IS MORE EFFECTIVE"

Respected Chairperson, esteemed judges, and my dear friends. Good morning to all. Today, I stand before you to speak AGAINST the motion, "Online Learning is More Effective Than Traditional Classroom Learning".

Traditional classrooms provide direct face-to-face interaction between teachers and students. Teachers can monitor every student's progress and clear doubts immediately. Physical school environments also build social skills, teamwork, and healthy discipline through sports and group activities.

In contrast, excessive online learning causes severe eye strain and health issues. Many students lack self-motivation and get easily distracted by social media. Technical glitches and poor internet connection further disrupt studies.

Hence, traditional classroom learning remains superior for holistic student development. Thank you!

FOR THE MOTION: "SOCIAL MEDIA DOES MORE HARM THAN GOOD"

Respected Chairperson, esteemed judges, and my dear friends. Good morning to all. Today, I stand before you to speak FOR the motion, "Social Media Does More Harm Than Good to Teenagers".

Social media platforms have become a major source of distraction for teenagers today. Young students waste precious hours scrolling through reels and posts instead of focusing on their studies. This screen addiction leads to poor academic performance and sleep deprivation.

Moreover, social media causes severe mental stress, cyberbullying, and fake peer comparison. Teenagers often feel inadequate when comparing their real lives with fake online profiles. Unrestricted online interaction also exposes youth to serious privacy and security risks.

Thus, social media causes significant harm to the physical and mental well-being of teenagers. Thank you!
